Already on the map? Claim your truck

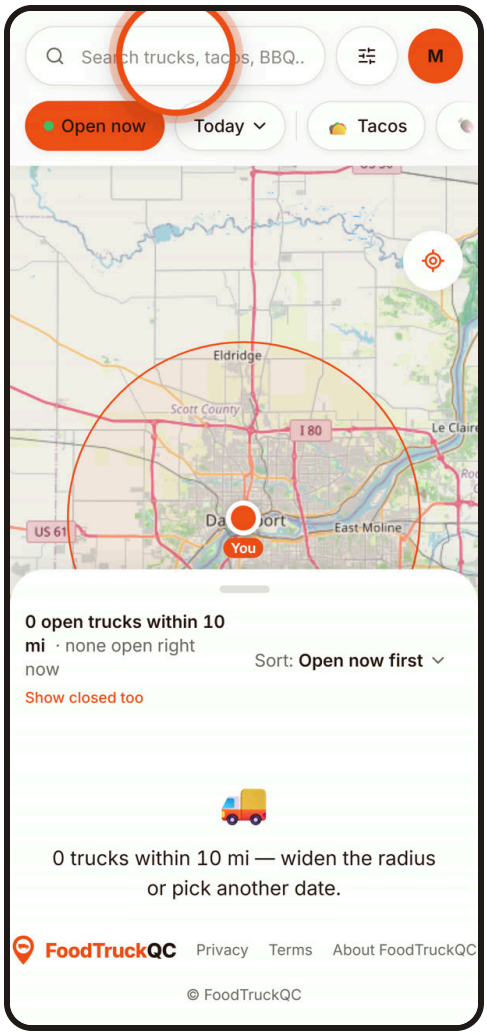

If your truck is already listed on FoodTruckQC, link it to your account instead of creating a duplicate.

💡 This guide follows the video step by step. Each picture shows the exact screen, with an orange circle on the spot to tap.

STEP 1

Search for your truck → View profile

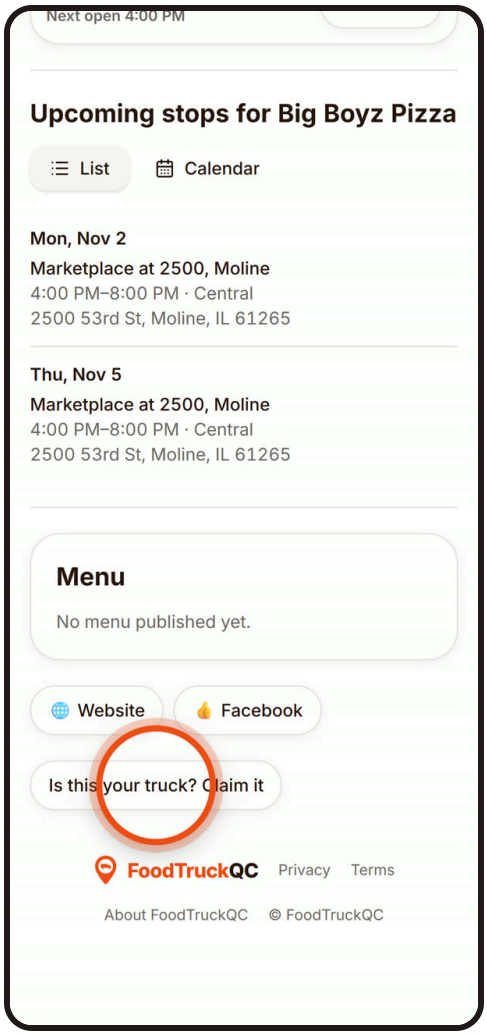

Some trucks are already on the map before their owners sign up. If yours is, don't create a new one — claim it. On the map, tap the search box at the top and type your truck's name. If your truck is closed right now, tap Show closed too. Then tap your truck in the list, and tap View profile.

STEP 2

Scroll down → Is this your truck? Claim it

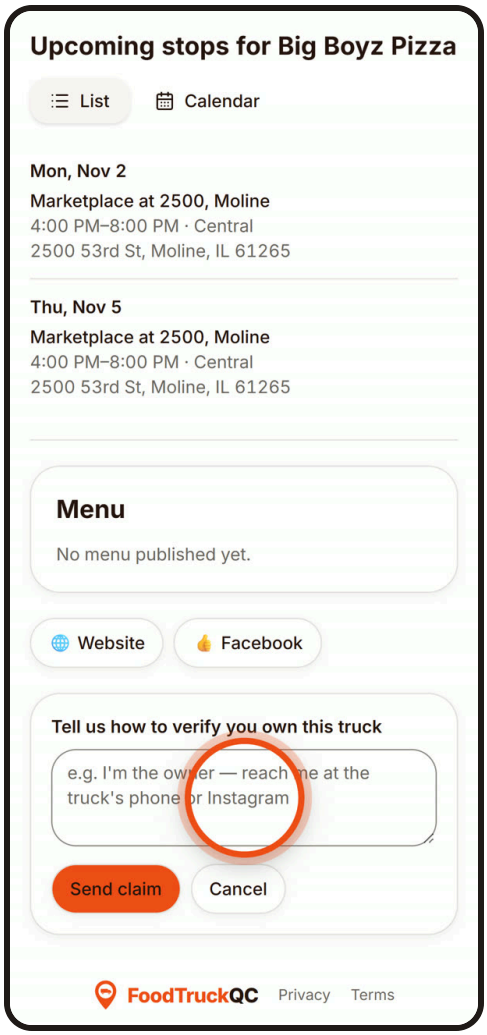

This is your truck's public page. Scroll all the way down until you see the button Is this your truck? Claim it. Tap it.

STEP 3

Write a short note → Send claim

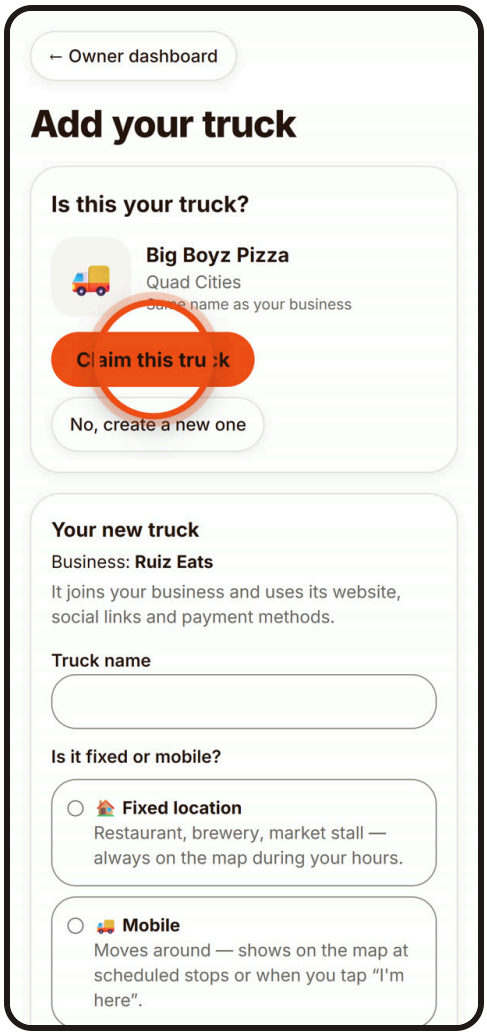

A box opens asking how we can check that you're the owner. Write something simple, like: I'm the owner, call me at the truck's phone number, or message our Instagram. Then tap Send claim. Our team usually reviews it within a day or two.

STEP 4

The “Is this your truck?” card

Sometimes we find it for you: on the setup page you may see a card that says Is this your truck? with your truck's name. If it's yours, tap Claim this truck. If it isn't, tap No, create a new one. Note: you need to have confirmed your email first.

STEP 5

While the claim is in review

While the claim is in review, you can already add your menu, photos and schedule — let's do that next.
